

Sanctity of Life

Babies Born Alive Protection Bill

Once a week on average a baby is born alive after a failed abortion and left to die. If I am elected to Parliament, I will be pushing for the Qld government to pass the Babies Born Alive Protection Bill which will make it a legal requirement that babies who are born alive after a failed abortion are provided with the same level of care that any other live baby would be given.

End Sex Selective Abortion

One of the most common reasons given for abortion in Qld is that the baby is the wrong gender. If I am elected to Parliament, I will be introducing a bill that will make it illegal to have an abortion if the abortion is being requested on the basis that the baby is not the desired gender.

Euthanasia, VAD & Palliative Care

Many people mistakenly believe that Euthanasia & Voluntary Assisted Dying are necessary in order to prevent people from experiencing suffering. The medical technology that we have in Australia means that no-one should experience ongoing suffering. The problem is that in Qld the funding for Palliative Care is substantially lower than it should be. If I am elected to Parliament I will be fighting hard to get Palliative Care funding to an acceptable level so that our elderly can live pain-free and with dignity in their final years of life.
